## Specification

### Standard Equipment Includes:

#### • Base Vehicle

- Wheel trim with Carthago lettering
- 2.3l diesel Multi-Jet engine, 4 cylinder, Euro 6
- Driver and passenger airbag, ABS, electronic immobiliser, EPS, ASR, Hill-holder, Hill Descent Control, Traction Plus
- Fog light
- LED daytime driving light
- Mud flaps on front and rear axle
- Fuel tank 90l

#### • Main Cabin

- Completely wood-free body shell
- GRP roof outer shell = hail protection, floor panel with GRP top and bottom = moisture and stone chipping resistant and will not rot
- Roof/wall connection via curved roof and frame member = contribution towards chassis rigidity
- Side walls/rear wall: Aluminium on outside and inside (heat storage effect: 1,000 time greater conductivity)
- Thermal bridge-free and highly stable chassis connection via shape-fitting bonded aluminium frame members with additional cold-stop
- Side roof rack system for easy accessory attachment and rain deflection
- Roof surface can be walked on
- Total wall and roof thickness, 38mm
- Carthago lighting and protection tested: Faraday cage thanks to the chassis interior being made of aluminium and additional lightning deflection
- Exterior hatches made from the original side wall material "Carthago Isoplus" = uninterrupted insulation
- Double flap seal: internal/external (outer seal as splash water protection)
- Exterior hatches with invisible, sunken hinges = elegant, flush appearance
- Fuel tank lid flush-mounted into the side wall
- Segmented side skirts made from aluminium extruded profiles, powder coated (easy to repair)
- 4-part rear frame with separate rear bumper (easy to repair)
- Carthago rear lights with modern design with Carthago "C" branding as LED lights
- Heki III panorama skylight above lounge seating group 900x600mm
- Seitz S4 cabin window, double frame with no thermal bridge, with insulated glazing, insect screen roller blind, blackout blind and window opening device
- Main cabin door "premium two" with safety double locking, 2 locking bolts, door window with insulated glazing, blackout blind, separate insect blind
- Exterior LED light above cabin door with integrated rain deflector
- Electrically extending entrance step, additional operation via driver's cabin and warning buzzer
- Cabin door entrance lowered into insulated double floor, with targeted heating to prevent influence of cold
- Carthago entry lighting in entrance area
- Safety key system for all cabin doors and hatches

#### • Carthago Driver's Cabin Concept

- Driver's cabin visibility concept with active dashboard lowered towards the front for extra-early visibility of the road

## Specification

### Standard Equipment Includes:

- Pleated windscreen blind with honeycomb for best possible insulation with vertical operation (black-out, sun visor, privacy, protection from heat and cold)
- Carthago "bestview" bus mirror system with large main angle and wide angle for perfect all-round vision, electronically adjustable
- Single level transition from living area to driver's cabin
- Front mask in high-quality, double-shell GRP structure with insulation, attachment parts can be replaced separately
- Rotating driver and passenger comfort seats Aguti "Roadliner" including logo in fine wood inlays, covered in same material as living area, with integrated seat belts and adjustable armrests at both sides
- Driver's cabin door with security double locking, electronically operated windows and additional rain gutter
- Low and comfortable door entrance
- Blackout blinds rear side windows (operated from the sides)
- Large sideboard with practical storage space at passenger side
- LED ambient lighting in the driver's cabin, can be dimmed separately
- Engine compartment noise insulation with extra "Silence" noise insulation package
- Driver's cabin access with practical shelf and entrance lighting
- 230V / 12V socket in the driver's cabin / seating group area
- **Climate Storage Double Floor**
  - Stepless, continuous floor in living area
- On board technology mount, storage space and climate storage, underfloor heating, contributes to driving stability
- Fully heated double floor, continuous double floor height of 170mm
- Underfloor heating: heat storage in the insulated double floor, radiation from below to the entire living area floor
- Double floor basement storage compartment with integrated central water drain lowered extra-deep in the entrance area (usable depth 420mm) – can also be operated from the outside through the main cabin door, bilge hatch with 2 "easy open" hinges, additional double floor storage compartment with usable depth of 400mm
- "Easy entry" exterior storage compartment, extra low in the heated double floor, with two exterior hatches (driver / passenger side) and central through-loading space (for loading from the outside and unloading from the inside)
- LED lighting of the double floor storage compartment
- **Scooter Garage**
  - Large scooter garage, extra low for more interior height
  - Connected with shape-fitting, bonded aluminium frame members = can be loaded up to 350kg
  - Access via two large side doors
  - Garage floor: Original floor panel with GRP on outside and inside, garage floor with anti-slip coating
  - Garage insulated all round and heated – frostproof

## Specification

### Standard Equipment Includes:

- Loading made simple by low edge and large interior garage height
- Lashing system for securing the luggage using stable frame members with flexibly adjustable eyelets
- 230v socket
- **Interior Design**
  - Kitchen cabinet doors / overhead storage cabinet flaps in "Yacht one" design, high gloss – cream
  - Kitchen work surface in "Savannah" decor with Corian drip edge
- **Living Area**
  - L-lounge seating group with side seat bench and two 3-point seat belts
  - 360-degree luxury living area table can be moved in 2 directions and also turned 360-degrees (via foot pedal)
  - Shoe cabinet with storage system integrated in the base of the seat bench
  - Living area seat upholstery with premium multi-layer foam core and back support function
  - Seat bench cover to double floor storage compartment with patented fitting, thus easy to open without having to remove the upholstery
  - "Durafix" double connection technology: Furniture parts bolted and mortised = durable joins, top stability and permanent quietness without annoying furniture rattling noises during travel
  - Solid metal household-quality holder rods, hinges and rails
  - Door closer with soft cushioning prevents noises while travelling
- Roman blind system on all living area windows, pleated in household quality: easy top operate with chain, system can be completely removed for cleaning, additional decorative curtain matching living area upholstery
- Walls and roof inside with microfibre climate-enhancing covering for an exclusive living room atmosphere and regulation of the living area climate
- **Kitchen**
  - Robust kitchen work surface with Corian anti-drip edge
  - Work surface lit from underneath with LED light strip
  - "Easy glide" drawers on rollers, self-closing with anti-slam
  - Kitchen units with central pull-out and two separate waste bins
  - "Flex" drawer organiser for individual arrangement of drawers
  - Separate drawer for cutlery with organiser, bottle holder
  - "Profi Gourmet" 3-ring hob with split glass cover for additional surface space, robust cast iron grate and easy to clean glass surface
  - Stainless steel round sink flush mounted in the worktop, with split and multifunctional sink cover (flush work surface, cutting board or additional storage area)
  - Practical wall holder for sink cover as additional work surface/cutting board
  - High design water fitting made from high-quality metal, ceramic seal and extendible spray head
  - Kitchen rear wall in cream decorative glass

## Specification

### Standard Equipment Includes:

- Coffee machine lift, can be lowered out of roof cabinet
- Bar cupboard with decorative glass door and interior lighting (glass holder with Carthago glass set)
- Fridge 160l volume with separate freezer compartment, automatic energy source finder 12v / 230v / gas
- Slide-out storage cabinet
- Electric extractor hood above the kitchen area with exhaust and supply air function
- 230v socket under the roof storage compartments
- **Bathroom**
  - Changing room with fixed separation from living area and therefore protected from view
  - Wooden sliding door for separating the changing room and bedroom
  - Separate, spacious shower room at opposite side with 2 position-independent drains
  - "One level" shower access
  - Shower with integrated shower insert with same design as living room floor (easy to remove for cleaning)
  - Shower head height-adjustable on chrome rail
  - Skylight for ventilation in shower
  - Washing room with mini Heki skylight
  - Cupboard under wash basin with basket for dirty washing
  - Large mirror storage cabinet with shelves
  - Single mixer tap with high-quality ceramic sealing
  - Thetford C 260 standard cassette toilet
  - Solid bathroom door with metal handle locking and door locking
- Practical double function door for simultaneous separation of sleeping / bathroom area from toilet
- **Sleeping**
  - Fold-down bed above the driver's cabin area:
    - Shelf with front flap beneath the fold-down bed, lockable at both sides
    - Largest sleeping area 195 x 160cm in its class
    - Two-part slatted frame and quality mattress
    - Extra-low bed = convenient access to the bed and generous seating height in the bed, bed access via side seat (no ladder required)
    - Stable and wobble-free in lowered sleeping position
    - Book shelf and LED spotlights
    - Dividing curtain between fold-down bed and living area
    - Mini Heki skylight above fold-down bed
  - Fixed beds in the rear area:
    - Medically recommended point elastic sleeping system Carawinx, heated and ventilated
    - Quality 7-zone cold foam mattress for optimal and healthy sleeping comfort
  - Lengthways single beds
  - Sleeping area extension between the lengthways single beds using additional mattress (no ladder needed)
  - Convenient access steps can be extended towards the front when using the sleeping area extension
  - TV cabinet in bedroom with shelf
  - Mini Heki skylight above rear bed
  - All-round roof storage compartment with large storage volume

## Specification

### Standard Equipment Includes:

- **On-Board Technology**

- Water

- Frost-protected fresh and waste water tanks positioned for optimal centre of gravity and integrated in heated double floor
- Fresh and waste water tanks with cleaning opening accessible through living area and scooter garage floor hatch
- Drain cocks frost-protected and in easily accessible location in double floor (central water drain)
- Water supply via low-maintenance and reliable water pressure pump system
- Waste water hose set for easy disposal

- Gas

- Gas compartment on outside at low level, therefore easy access
- Takes two 22kg gas bottles, separate exterior hatch with holder
- Gas taps easily accessible in kitchen area

- Electricity

- Electrical centre, easily accessible in rear garage including charger / fuses / fuse protection, 16A automatic charger, electronic starter battery charging function
- Battery centre with 2x 80 Ah gel batteries can be accessed from outside, heated, with main power switch
- Backlit multi-function panel behind technical panel above the entrance door with membrane keyboard, easy to operate
- 230 v sockets in kitchen, bathroom and entrance area

- 12v socket in the driver's cabin / seating group area

- Innovative Lighting Concept

- LED spotlights in living area above seating group beneath overhead storage cabinets and beneath rear bed, kitchen and folding bed over-head storage cabinets
- Ceiling canopy with additional LED spotlights and indirect LED lighting for cosy ambience
- LED accent light with background lighting in the entrance area
- Lighting system in the living area continuous dimmer function so you can choose your own lighting mood

- TV

- TV connection kit in backrest of side bench

- **Heating Technology**

- Truma Combi 6 hot air storage heating system gas powered UPGRADED TO TRUMA COMBI 6 E
- Numerous hot air outlets in driver's cabin, dashboard support in driver's cabin, entry door, living area, double floor as well as in the rear garage
- Targeted dashboard heating for additional driver's cabin heating: dashboard acts as "radiator" with widespread heating effect
- Underfloor heating from heated climate storage double floor
